

GERRARD LEWU

DEVOPS / CLOUD OPERATIONS CANDIDATE

Cape Town, South Africa | +27 76 200 4011 | gerrardlewu@gmail.com | github.com/Gerrard-Lewu | linkedin.com/in/gerrardlewu

SUMMARY

Early-career DevOps and cloud operations candidate with professional experience supporting live and development project delivery at Studio Venturis. Brings IT studies, AWS and Azure certifications, and a practical foundation in GitHub workflows, Linux, deployment coordination, documentation, and troubleshooting. Seeking a junior DevOps / Cloud Engineer role where disciplined automation, secure delivery practices, and production-minded collaboration can grow through hands-on work.

SKILLS

Professional-use focus: GitHub-based workflows, deployment follow-through, issue coordination, technical documentation, stakeholder updates

Cloud foundation: AWS, Microsoft Azure, IAM, VNet, App Service, ECS Fargate, ECR, EKS, AKS, RDS, SQS, Service Bus

Learning and portfolio tools: Terraform, Docker, Kubernetes, Helm, GitHub Actions, Bash, PowerShell, Prometheus, Grafana, AWS CloudWatch

Operations: Linux, troubleshooting, DNS, load balancing, container orchestration, CI/CD concepts, Infrastructure as Code (IaC)

EXPERIENCE

DEVOPS ENGINEER INTERN | STUDIO VENTURIS

Jun 2026 - Present | Cape Town, South Africa

- Support production and development projects serving thousands of monthly active users by coordinating issues, changes, documentation, and deployment-related follow-through across live environments.
- Review application behaviour with project stakeholders and technical collaborators, helping maintain clear ownership and reliable delivery for user-facing products.
- Use GitHub-based workflows to keep tasks, technical context, stakeholder updates, and next actions aligned across project work.

PORTFOLIO

DevSecOps Landing Zone Factory

Tech: Azure/AWS, Terraform, GitHub Actions, OIDC, Policy-as-Code

- **Multi-Cloud Foundation:** Built isolated dev/test/prod landing zones featuring remote state, OIDC least-privilege identities, and budget alerts.
- **Pipeline Security:** Automated CI/CD with inline PR security scanning, policy-as-code enforcement, and production approval gates.

GitOps Progressive Delivery Platform

Tech: AKS/EKS, Kubernetes, Helm, Argo CD/Flux, Terraform

- **Secure Delivery:** Decoupled app and config repos using signed container images, GitOps reconciliation, RBAC, and network policies.
- **Progressive Releases:** Implemented canary and blue-green deployments with automated metric-driven rollbacks and drift correction.

SLO Sentinel: Observability & Incident Automation

Tech: OpenTelemetry, Prometheus, Grafana, CloudWatch/Azure Monitor

- **Telemetry & Reliability:** Instrumented microservice telemetry to track golden signals, error budgets, synthetic checks, and SLOs.
- **Incident Response:** Validated end-to-end incident workflows from alert firing to distributed trace diagnosis and post-mortems.

Resilience & Cloud Governance GameDay

Tech: Terraform, OPA/Checkov, Infracost, AWS FIS/Azure Chaos Studio

- **Governance & FinOps:** Provisioned multi-zone infra with automated policy checks, pre-deployment cost estimations, and auto-scaling.
- **Chaos Engineering:** Executed controlled failure drills to validate recovery objectives (RTO), backup restores, and system resilience.

EDUCATION & CERTIFICATIONS

NORTH-WEST UNIVERSITY (NWU) | INFORMATION TECHNOLOGY STUDIES

2022 - 2025 | Focus: software development, cloud infrastructure, databases, networking, systems design, practical project work

Certifications: AWS Certified Solutions Architect - Associate (2026) | Microsoft Certified: Azure Administrator Associate (2026) | AWS Certified Cloud Practitioner (2026) | Microsoft Azure Fundamentals (2025) | OCI Foundations Associate (2025)

LEADERSHIP & ACHIEVEMENT

- Led Team Code Blooded in designing and implementing HarvestHub Technologies under competition constraints, earning a Top 10 finish among 300+ students and developers.
- Coordinated first-year onboarding and acted as a liaison among students, residence leadership, and university structures.
